Re: Resolution & Order No. 2022-374

The following item is scheduled to be heard on October 18, 2022:

Resolution & Order No. 2022-374

In the matter of an intergovernmental agreement between the Oregon Cascades West Council of Governments (OCWCOG), Lincoln County, Benton County, and Linn County and delegating authority to execute originals.

Linn County entered into an IGA with Lane/Lincoln/Benton/Linn counties to perform a broadband initiative to expand broadband needs to underserved populations within our four counties. Lane County decided to exit this IGA and this is a new agreement to remove Lane County and keep Linn County within this EDA Grant. This new agreement will be led by OCWCOG. The EDA Grant process has a vendor, Solarity, who is currently working on the project and is currently performing research into the three remaining counties to determine where federal funding can be used to enhance broadband needs for underserved populations. The IGA Grant research will continue for another 6-months and then proceed into a 12-month funding and grant writing period, thereafter completing the EDA Grant process.

Financial Impact:

For this IGA, Linn County's match obligation is \$10,000. Benton County is to pay \$16,000, Lincoln County is to pay \$15,800, and OCWCOG is to pay \$18,200. This gives a total coalition partner match of \$60,000 with a grant application return of \$300,000.

Staff Recommendation:

The recommendation is to proceed forward with this IGA Agreement and continue within the IGA for the EDA Grant to help fund the broadband growth for Linn County.
